Mindy, Russ and John –

As was mentioned at the meeting this morning, we need your help to develop a list of background papers in preparation for the Administrator's hearing before the House Ag Committee.

1. We have a set of papers that were developed in the summer for a different hearing, which you'll find attached. Can you please review and update as appropriate the attached factsheets? We'd like to keep these to one page, if you can edit them down.
2. For the topics below, can you please develop factsheets? We are going to look for short and direct responses, and don't want to provide too much detail, especially in the talking points/"answer" section. Crisp answers are the most useful during the Administrator's actual hearing. I imagine you all may already have factsheets from previous hearings (that I don't have access to) on many of these topics. You could probably also draw on the ag Q's and A's that are in the works (copying Donna). Please use the same format for these factsheets as you'll find in the attached factsheets (question/issue, then answer/talking points and finally background):

- a. Cargill

**Redacted - Non-responsive**

# Redacted - Non-responsive

Can you all get us one-page factsheets on these topics **by Friday**? Sorry for the time crunch, but the hearing is coming up quickly. Please let me know if I can help in any way (drafting responses, etc).

Thanks,

Chris Orvin
